

PRODUCT QUALITY COMPLAINT REPORT

Zenith Life Sciences — Customer Quality Group · Ref CC-2026-00154

Complaint Source	Customer Email
Customer Name	Zenith Life Sciences Pvt. Ltd.
Product Name	Paracetamol API (Micronised)
Product Strength / Grade	IP / BP, 99.7% assay
Batch / Lot Number	PCM-2603-204
Manufacturing Date	2026-03-18
Expiry Date	2029-03-17
Quantity Affected	150 kg (6 x 25 kg fibre drums)
Complaint Date	2026-07-16

Description of the defect

On receipt inspection and incoming analytical testing of the above batch, our quality control laboratory obtained an out-of-specification assay result. The certificate of analysis supplied with the consignment declares an assay of 99.7 percent, however our HPLC assay on composite sampling returned 98.1 percent against a specification limit of not less than 99.0 percent. The test was repeated on a fresh preparation and the result was confirmed at 98.2 percent.

In addition, a related substances chromatogram showed an unspecified impurity at approximately 0.18 percent, above our 0.10 percent reporting threshold. The affected 150 kg has been quarantined under hold reference ZLS-HOLD-2026-311 and no material has entered our finished product manufacturing.

We request a formal investigation into the discrepancy between your released certificate of analysis and our incoming results, including a review of the retained reference sample and stability data for this batch. Please respond within 30 calendar days per our quality agreement.
